ויעקב הלך לדרכו

The year begins with a month packed with *yomim tovim*, each filled with its own observances and meaning. As the month comes to a close, the *avoda* changes to that of regular routine, to channel all the energy gathered over the past few weeks to serve Hashem throughout the forthcoming ordinary days of the year.

In this month's installment of the *Moments* column, we feature a collection of images depicting life in 770 in the days immediately following Simchas Torah.
