TOGETHER AS ONE

FIRST YECHIDUS KLOLIS-DOWNSTAIRS

26 TISHREI 5744

Yechidus Klolis, group yechidus, began in 5742. It first took place in the Rebbe's room, then in the small zal. With time, the process became more organized and the groups were split into several categories. The Rebbe would speak briefly to each group, then all of the assembled would walk by the Rebbe and hand in their panim, and the Rebbe would give each one a dollar for tzedakah. This later moved to the big shul.

The following collection of photos are from the very first Yechidus Klolis that took place downstairs, in the main shul of 770.

For more on this see "Yechidus - The Ultimate Bond" in the Tammuz issue of 5775, as well as "Yechidus Klolis" in Shevat 5778.

Compiled By: Rabbi Shabi Soffer

The first group was comprised of families who came as guests for Tishrei. At the start of the yechidus, everyone walks past the Rebbe to hand in their pan, then returns to their places.

The Rebbe addresses the crowd with brachos for the rest of the year and encourages them to utilize the remaining days of the special month of Tishrei.

The Rebbe also addresses the positive aspects of this relatively new format of yechidus, explaining the significance of Jews gathering together, and how it can be easier to take hachlotos when one has the encouragement of people around them.

The Rebbe then hands out dollars for tzedakah. On this unique occasion, the Rebbe stood on the opposite side of his usual place at the farbrenge bima, to make for a smoother passage of the line.

The next groups to enter were guests from Kfar Chabad and Nachalas Har Chabad, those celebrating their Bar/Bas Mitzvah, Chasanim and Kallos, and bochorim returning to yeshiva.

The Rebbe distributed dollars to each group.
